

STOPFRAUD™ PAYMENT SECURITY SOLUTION

End-to-end *security*, powered by people who care

We've all seen it: large corporations all over the news and social media with reports of hackers obtaining valuable customer payment information.

The ramifications of payment fraud extend far beyond the simple act of the "bad guys" getting customer data and can haunt corporations for years to come.

At Corcentric, your suppliers' security is our highest priority. We have integrated a state-of-the-art validation system that protects both our customers and their suppliers from potential fraud. We call it **StopFraud™** because our system does just that—it stops potential fraudulent activity dead in its tracks.

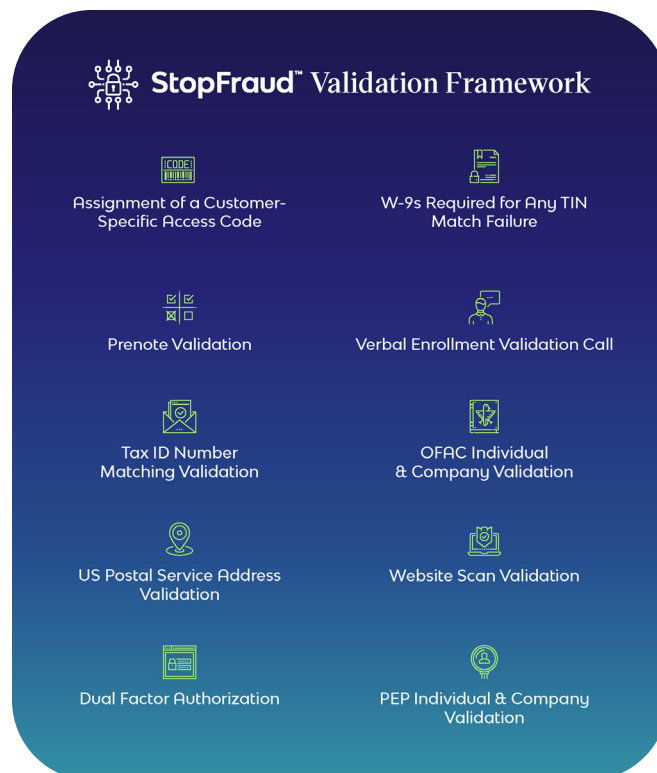

The Corcentric *Difference*

Because we know that technology alone doesn't fully serve our customers' needs—especially when it comes to fraud protection—StopFraud™ ensures protection through every step of the AP process with our team of dedicated payment validation experts. StopFraud™ goes beyond software to deliver service-driven payment protection through a hands-on approach that blends multi-factor validation, continuous supplier enrollment, and expert oversight. Built on industry-standard banking safeguards, the StopFraud™ Validation Framework adds continuous monitoring, AML screening, and

audit-ready controls—so your team never faces payment risk alone and can move forward with complete confidence in every transaction.

StopFraud™ *Validation* Framework

StopFraud™ is a multi-factor, layered defense that combines advanced validation technology with human expertise to deliver the ultimate protection against payment fraud. Our industry-leading, multi-point framework protects and secures valuable customer and supplier contact and payment information.

STOPFRAUD™ PAYMENT SECURITY SOLUTION

Protection isn't a one-time action with StopFraud™ — it's a continuous commitment.

Key Components

- o **Multi-Layer Validation** - Secure, verify, and monitor supplier payment information.
- o **Human Oversight** - Fraud prevention experts actively review and approve sensitive data changes.
- o **Continuous Re-Validation** - Keep supplier networks safe and compliant.
- o **Audit-Ready Controls** - Support internal and external compliance requirements.

Exceptional Service & Care

Fraud prevention isn't just about technology: it's about people. At Corcentric, our commitment to exceptional service means every client and supplier is supported by a dedicated team of fraud prevention experts. From onboarding to issue resolution, our specialists guide customers through validation protocols, monitor for anomalies, and resolve potential risks with precision and speed. With real people playing such a vital role, protection isn't just a feature—it's a promise.

Fraud Stops at *Onboarding*

The most effective way to stop fraud is to prevent it from ever gaining access. That's why Corcentric's StopFraud™ begins its work at the first point of contact. Every supplier is rigorously vetted through our multi-layered validation framework, ensuring only legitimate, trustworthy partners

are onboarded. But we don't stop there: ongoing re-validation keeps your network clean and secure, catching potential threats before they take root. With proactive onboarding controls, fraud doesn't get a chance to start.

Spend *Optimization*

Fraud protection and financial efficiency go hand in hand. Corcentric empowers organizations to optimize their payment strategies by aligning spend with the most secure and cost-effective methods available. Our platform helps you strike the right balance, reducing reliance on high-risk payment channels, minimizing transaction costs, and enhancing visibility across your supplier network. For customers who still prefer paper checks, StopFraud™ applies 3-Point Positive Pay verification before any transaction clears. The result is smarter spend, stronger safeguards, and a bottom line that benefits from both.

Confidence in *Every* Payment

With StopFraud™, protection isn't a one-time action; it's a continuous commitment. Our blend of human oversight, advanced validation, and proactive monitoring ensures every payment is processed with confidence and integrity. From onboarding to reconciliation, Corcentric safeguards your payments and your reputation, giving your team the freedom to focus on what matters most—driving your business forward.
